

ERIC SAYER

Full-Stack JavaScript Developer | React Native/Expo | Node.js/Express

me@ericsayer.com | 801.810.4174 | Salt Lake City, UT | [linkedin.com/in/ericsayer](https://www.linkedin.com/in/ericsayer) | github.com/sayex | ericsayer.com

PROFESSIONAL PROFILE

Full-Stack JavaScript Developer and software product builder with 7+ years of hands-on development, instruction, and technical consulting experience. Builds production-minded web and mobile applications with React, React Native/Expo, Node.js, Express, MongoDB, SQL, REST/GraphQL APIs, and cloud deployment workflows. Known for translating business needs into scalable features, debugging across the full stack, mentoring developers, and communicating technical decisions clearly to non-technical stakeholders.

CORE TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, React Native, Expo, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Python, OAuth, authentication, third-party integrations

Databases & Data: MongoDB, Mongoose, PostgreSQL, MySQL, Microsoft SQL Server, reporting dashboards, data modeling

Cloud, DevOps & Tools: Git, GitHub, GitHub Actions, AWS EC2, Nginx, PM2, Cloudflare, EAS Build, Agile/Scrum

Delivery Strengths: Full-stack architecture, code reviews, debugging, requirements translation, documentation, developer mentoring

SOFTWARE DELIVERY STRENGTHS

- Builds full-stack products from idea to deployment, including mobile apps, backend APIs, database models, authentication, infrastructure, and release planning.
- Combines technical delivery with teaching experience: explains complex concepts clearly, mentors developers, reviews code, and improves team readiness.
- Brings older technical support and operations experience into software work, with a strong focus on troubleshooting, documentation, reporting, and business execution.

PROFESSIONAL EXPERIENCE

Avryq: Real-Time Events | Co-Owner / Full-Stack Developer | **Jan 2026 - Present** | Salt Lake City, UT

- Co-founded and lead development of a real-time event discovery platform focused on local events, maps, businesses, and community engagement.
- Architect product features across the mobile app, backend API, database models, authentication, deployment, and environment management.
- Build with React Native/Expo, Node.js/Express, MongoDB/Mongoose, REST APIs, Mapbox, push notifications, and deep-linking workflows.
- Manage cloud and server infrastructure tasks including domain routing, SSL, Nginx reverse proxying, process management, and CI/CD planning.

Self-Employed | Full-Stack Developer | **Apr 2019 - Present** | Salt Lake City, UT

- Build custom web applications, APIs, dashboards, prototypes, and internal tools for software and business needs.
- Develop frontend interfaces with React and JavaScript and backend services with Node.js/Express, MongoDB, and SQL databases.
- Integrate third-party APIs, authentication flows, and data workflows; troubleshoot across browser, server, and database layers.
- Collaborate with stakeholders, document implementation plans, and deliver maintainable code using Git/GitHub workflows.

PROFESSIONAL EXPERIENCE (CONTINUED)

edX / Trilogy Education | Full Stack Instructor, Senior Full Stack Tutor, Teaching Assistant | **Aug 2019 - May 2025** | Salt Lake City, UT

- Taught full-stack MERN development for university bootcamp programs, including React, Node.js, Express, MongoDB, SQL, APIs, Git, and deployment.
- Mentored students one-on-one and in class through debugging, project architecture, code reviews, and deployment decisions.
- Led coding labs on problem-solving, data structures, REST APIs, MVC patterns, authentication, agile teamwork, and real-world project delivery.
- Evaluated student work and provided actionable technical feedback to improve code quality and professional readiness.

ADDITIONAL TECHNICAL & OPERATIONS EXPERIENCE

Toys R Us | Regional Director Administrative Assistant / Reporting & Technical Support | **Apr 2010 - Sep 2018** | UT / CA

- Built and ran daily operational reports using Excel and SQL for sales, fulfillment, product adjustments, store-hour usage, overdue inventory, and regional execution.
- Supported regional leadership, 20+ district managers, and 120+ stores with reporting, equipment, application, and technical troubleshooting.
- Trained office staff on basic SQL queries and reporting workflows; improved visibility into store execution and project completion.

ADP Lightspeed | Technical Consultant Level II | **Oct 2006 - Feb 2009** | Salt Lake City, UT

- Delivered software training and system setup for powersports dealerships across the United States and Canada.
- Taught internal training classes on database structure, software features, and the interaction between the application and its database.
- Troubleshooted customer software issues by phone and remote support; created best-practice documentation and helped manage change requests.

Unisys | Help Desk Specialist | **Jun 2005 - Oct 2006** | Salt Lake City, UT

- Provided hardware, software, account, and password support for enterprise clients including Cadbury, Capital One, and Marriott.
- Documented ticket resolution steps and created internal how-to resources to improve support consistency.

SELECTED SOFTWARE PROJECTS

9th & 9th Street Fair Vendor System | Volunteer Software Project | **2008 - 2018** | Salt Lake City, UT

- Built a vendor application and payment system with a reporting dashboard to support local event operations.
- Created reporting workflows that helped organizers track vendors, payments, and event operations more efficiently.

GreenLight | JavaScript / API Project | **2019**

- Built a front-end application using JavaScript, jQuery, AJAX, Spotify API, Bandsintown API, OAuth, and Node.js in a team coding environment.

Milliways and Movie Mate | Full-Stack Bootcamp Projects | **2019**

- Built collaborative applications using React, Node.js, MySQL, Handlebars, APIs, MVC patterns, and backend design practices.

EDUCATION, CERTIFICATIONS, AWARDS & LANGUAGES

Education: University of Utah Professional Education Coding Bootcamp - Certificate, Full-Stack Web Development, 2019

Certification: Full Stack Coding Boot Camp

Honors & Awards: Best UI/UX, Most Creative, Best Use of Tech, Most Awe-Inspiring, Best CSS

Languages: English (Native or Bilingual), ASL (Elementary)
